Allowable Subject Matter

1. Claims 1-10 and 21 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Claim 1 distinguishes over the prior art of record in that the Applicant specifically claims initiating a secondary game at a gaming device, at a first point in time determining a first amount of time available for completing the secondary game, during the first amount of time available for completing the secondary game: randomly determining a first outcome of a first play of a primary game, display the randomly determined first outcome, determine an award associated with the randomly determined first outcome and provide any determined awards; at a second subsequent point in time, determining, based on the first amount of time available for completing the secondary game and the randomly determined first outcome, a second amount of time available for completing the secondary game, wherein a difference between the first amount of time available for completing the secondary game and the second amount of time available for completing the secondary game is different than the amount of elapsed time between the first point in time and the second point in time; and upon completing the secondary game: determining whether to provide any awards for any secondary game outcomes, and ending the secondary game. The prior art of record does not disclose these limitations of the method of operating a gaming system as claimed by the applicant in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
